

# MT Card Ver2.3 Update Instruction

The update brings the latest virtual system function.

To update to Ver2.2, just transfer the latest launcher.dat to the SD card and replace the old one. Hardware version remains the same(Ver 2.0).

1. For NAND-emulate. Support the latest version 9.4.0-21. You can enter Eshop and play the latest games after update. For more details, please read the provided instruction with the update package
